

Accelerating Healthcare Improvement

The Canadian Foundation for Healthcare Improvement is a not-for-profit organization funded by the Government of Canada, dedicated to accelerating healthcare improvement. CFHI plays a unique, pan-Canadian role in supporting healthcare delivery innovation. We help teams from different jurisdictions work together on common improvement priorities, providing opportunities to share and implement evidence-informed solutions across regions, provinces and territories.

(Patient Engagement Project, 2010)

Our Partners

We collaborate with healthcare leaders, including clinicians and other providers, managers and executives, working in organizations across Canada such as:

- Hospitals
- Long term care facilities
- Health regions
- Provincial-territorial health ministries
- Provincial agencies such as quality councils
- Public health organizations

We Can Help

We can help you implement the change you need – using appropriate evidence, engaging providers, patients and families, and evaluating and measuring performance – to address:

- Chronic disease management and prevention
- Access and wait times
- Emergency department utilization and diversion
- Care for people who frequently rely on hospital services
- Transitions in care
- Patient safety
- Care for northern, rural and remote communities

Work With Us

Our program offerings can help you achieve measurable improvements in patient care, health outcomes and value for money. Learn more about our:

- Quality improvement collaboratives
- EXTRA program for healthcare improvement
- *On Call* webinars
- Improvement workshops and conferences
