

## Nursing Always Practices

### Evaluation for Nursing Staff

**Date:**

**Shift:**

	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
<b>Bedside Handover:</b>					
Improves the communication between the nurse and patient /family (My questions about the patient are answered before I begin his/her care).					
Improves patient safety and quality of care (The report I received matches the patient condition).					
Improves the patient/ family experience with the care (Patients and families are pleased to be invited to participate in bedside shift report).					
Improves my understanding of the patient's plan of care (I am better able to prioritize my shift).					
Improves my time management and the accountability between nurses (Bedside shift report provides better information and is better use of my time).					
<b>Adopting the following Nursing Always Practices has improved my Nursing Professional Practice</b>	<b>Yes</b>	<b>No</b>	<b>Comments</b>		
Introducing myself					
Updating the Care Board					
Using SBAR					
Using HEAL					
Using 6 for Safety					
Participating in the Priority Huddle					
Completing the Priority List					
Conducting an Hourly Round of my patients					
<b>Overall Comments:</b>					

**Nurse Always Practices**

**Evaluation for Patients and Families**

**Interview**

**We want to provide you with the best quality care possible and we would like your feedback and comments regarding Nursing Always Practices.**

**Please think about when you participated in the nurse bedside handover report.**

Questions	Response
<p><b>Could you please describe what the nurses did and talked about during the bedside handover? (Introduce themselves, update the Care Board, invite participation, speak in an easy to understand way, invite questions etc.).</b></p>	
<p><b>How did the bedside handover make you feel?</b></p>	
<p><b>Please tell me if the bedside handover increased your confidence that your care is being well coordinated and provided safely.</b></p>	
<p><b>What was most important to you about the bedside handover?</b></p>	
<p><b>Do you have any concerns about the bedside handover process?</b></p>	
<p><b>Did your nurse come into your room about every hour to check on your positioning, you comfort level (pain), if you had access to your personal possessions and if you needed help to use the bathroom?</b></p>
