

# Name Badge Communication

Hi,

Welcome to the Designated Care Partner program, identifying your role as a designated care partner is an important step in establishing and strengthening a relationship that can support the overall wellbeing of the resident and provide the team with a better understanding of their needs and beyond.

Identifying designated care partners will:

- Make the active screening process at entry points smoother if the staff are expecting you
- Help with ensuring safe movement into and throughout the home, including limitations for where caregivers can go in each home
- Support the Designated Care Partner policy

Each Designated Care Partner will receive a photo ID badge, please email [lrcfamily@grey.ca](mailto:lrcfamily@grey.ca) with a headshot photo of yourself in a **.JPG or .PNG** format.

- **Please save the photo as your name and home location (ex: "Jane\_Doe\_Rockwood")**
- If you cannot rename your photo, please indicate both your name and your LTC home location in your email subject line.

**Please note:** your information will be cross-referenced and your photo will be saved in our LTC system for safe keeping, this will allow us to re-issue ID cards if necessary. Sending us your photo will be regarded as implicit authorization to use and save your photo for this purpose. It will not be publicized or distributed without your permission.
